

Registration for Professional Practitioners

Stanmore College

June 2016

Tina Clegg – Chair HPSET

Registration

Other professions registered through the Health Professional Council. We work to their standards.

We had worked with NAHPS to become a registered profession
Title, training, research, publications, Continuing Professional Development (CPD) Voluntary register

HPC closed to new groups of staff entering the Register

Registration:

We need mandatory registration to:

- Set standards
- For the safety of Patients
- Mandatory registration required to practice
- Protected title
- Mandatory training
- De- registration of practitioners

Process

It is your responsibility to continue to register
know your dates

Inform HR of your reregistration date, and if profiled

Email for re-registration every two years

(use private email not NHS – often filled to spam)

10% of those registering will be required to produce
a profile – evidence of CPD and fitness to practice

Late submission will have an increased fee and will require a profile

Return to practice profile

Process:

- Profiles marked by Trustees of the Board who sit on the registration group under the leadership of the Chief Registration Officer Mrs Meriel Tootell
- Information is all on the website HPSET
- Autumn 2016 new design website open
- Easier to navigate
- registrants section: password protected
- Log on check your record on register, re-registration date, amend name changes and contact details.

Profile: Key words/actions

Reflection is key for successful profile writing

Group 1 describe reflection as a process, how does reflection demonstrate learning

Group 2 describe confidentiality and how it can be breached and how to maintain it.

Exchange papers and add to work undertaken
share ideas

Profile

- Review profile paperwork
- Identify how you will collect CPD evidence to support profile writing and submission

Code of Conduct

Sign to say you will adhere to standards for practice and behaviours

Signing to say fit to practice

There are consequences for practitioners who breach the code of conduct as they will be linked to the values and behaviours of your employers
